The project known as the "Tunnel Stabilization and Sewer Pipeline Replacement Project" (Project) involves improvements to the existing tunnel access, development of a new tunnel shaft access point, enlargement of the tunnel, and replacement of a 24-inch Techite gravity sewer pipe located within the tunnel.

RFQ minimum qualifications include:

- Successful completion of two to five closely related projects within the last 10 years that involve one or more of the following:
 - excavation and shotcrete support of small tunnels in soft bedrock
 - rehabilitation of tunnels with existing pipelines
 - tunnel work with limited access and staging
- Capacity and Resources:
 - Project Manager with 10+ years of experience in tunnel construction
 - General superintendent with 10+ years experience in tunnel construction
 - Appropriate equipment for rapid mobilization
- Prime Contractors shall self-perform 75% of the work.

For further information, interested companies may obtain a copy of the RFQ by registering on the District's electronic bidding system, Planet Bids, located on the District's web site at scwd.org/planetbids. Use code 0760 when registering on Planet Bids. State and Federal requirements including DBE and Prevailing Wages apply to this Project and are included in the RFQ.

Responses to the RFQ are due no later than September 25, 2017 and will be submitted through the District's e-bidding system.
